Town of Hay River Management Discussion & Analysis (MD & A) for the year ended December 31, 2021

Purpose

The purpose of the MD&A is to provide Management's summary of how the municipality has performed over the past year- its financial conditions and its future objectives. This MD&A should be read in conjunction with the Audited Financial Statements as of December 31, 2021.

The Year in Review

During 2021, the continuing impact of the COVID-19 pandemic resulted in several changes to the Town's operational plan. Employee turnover in several key positions created a challenge for Administration to hire and support replacements. These positions include the Town Foreman, Director of Public Works, Protective Service Specialist, and Human Resources Manager.

To support the Town's future capital needs, Council approved increases the annual targeted transfer to capital from \$1M in 2020 to \$1.5M in 2021. The Town's financial position continues its trend of strengthening from 2020. Significant progress was made during the year in executing on the Town's ten-year capital plan. Highlights of the 2021 capital program include:

- Upgrades to the Town's water and road infrastructure, specifically Caribou Crescent, Beaver Crescent, and Riverview Drive.
- Significant progress on completion of Lift Station #4.
- Completion of Fraser Place design
- Purchase of New Ambulance
- Purchase of Sewer Flusher and Trailer
- Replacement of Fire Hall Communications Tower.
- Pool pump replacement, aquatic LED light replacement, and new fitness equipment.

Results from Operations

In the 2021 fiscal year, the community recorded an operating deficit of \$480,261 before net government transfers. Including the net government transfers for capital the community recorded a surplus at the end of 2021 of \$9,693,094

Revenues excluding capital transfers increased from 2020 by \$345,375 due to higher property taxes, slightly higher government operating transfers, and increased utility revenue.

Expenses increased significantly from 2020. COVID-19 resulted in decreases to operating expenses which normalized in 2021, primarily impacting recreation and public works.

Revenue recognized from capital contributions increased by \$6,156,475. This was due in large part to significant progress being made on the Riverview, Caribou and Beaver utility and roadwork projects, and the progress made on Lift Station #4. Both projects are ICIP eligible projects and have significant Gas Tax and CPI funding components as well.

Financial Position

Financial assets increased by \$4,155,295 driven mostly by increases in accounts receivable. The Town had significant capital funding receivables at year end from submitted claims which were subsequently received. Liabilities also increased by \$1,139,204 attributable to an increase in holdbacks payable relating to the ongoing capital additions work and an increase in deferred contributions. Overall, the Town's financial position continues to strengthen, allowing for a transfer to reserves of \$2.9M, an increase of \$1.4M from budget.

Looking Forward

The Town has ambitious capital goals over the next few years relating to the approved ICIP projects, which will require continued growth to reserves to fund the Town's portion. In 2022 the Town has budgeted projects including Capital Drive underground and road work, Industrial Drive underground work, completion of Riverview Drive and Beaver Crescent road resurfacing, and the first stage of the Fraser Place land development. Preparation will continue projects identified through the 10-year capital plan, including a new Water Treatment Plant, new Landfill and new Townhall.

MANAGEMENT RESPONSIBILITY FOR THE FINANCIAL STATEMENTS

The Town Council which is responsible for, among other things, the financial statements of the Town of Hay River, delegates to Administration the responsibility of the financial statements. The Town Council appoints independent auditors to examine and report directly to them on the financial statements. The financial statements were prepared by Administration. Accounting principles have been followed as recommended by the Department of Municipal and Community Affairs, based upon the requirements of the Cities, Towns and Villages Act of the Northwest Territories, and the Public Sector Accounting Board recommendations of the Canadian Institute of Chartered Professional Accountants.

Administration maintains a system of internal controls to ensure that transactions are accurately recorded on a timely basis, are properly approved and result in reliable financial statements. There are limits inherent in all systems based on the recognition that the cost of such systems should not exceed the benefits to be derived. Administration believes its system provides the appropriate balance in this respect.

The Town Council carries out its responsibility for review of the financial statements primarily through the Administration. The Administration reports regularly to Council on financial matters, including the results of the audit examination and any other matters necessary for its consideration in approving the financial statement issuance.

The financial statements have been reported on by Ashton Chartered Professional Accountants. The auditor's report outlines the scope of their audit and their opinion on the presentation of the information included in the financial statements.

Senior Administrative Officer Town of Hay River Hay River, NT June 28, 2022

INDEPENDENT AUDITOR'S REPORT

To the Mayor and Council

Opinion

We have audited the financial statements of the Town of Hay River ("the Town"), which comprise the statement of financial position as at December 31, 2021, and the statements of changes in accumulated surplus, operations, changes in net financial assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Town as at December 31, 2021, and the results of its operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Town in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with those requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Town's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless management either intends to liquidate the Town or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Town's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements. As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform
audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our
opinion. The risk of not detecting a material misstatement resulting from fraud is higher than one resulting from error, as fraud may
involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Auditor's Report to the Members of the Town of Hay River (continued)

- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Town's internal controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Town's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Town to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Statements

December 31, 2021

Note 1. Significant Accounting Policies

The financial statements of the Town of Hay River are the representations of management prepared in accordance with generally accepted accounting principles for local governments established by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada. Significant aspects of the accounting policies adopted by the Town of Hay River are as follows:

Reporting Entity

The financial statements reflect the assets, liabilities, revenues and expenditures, changes in fund balance and change in financial position of the reporting entity.

The Town of Hay River receives significant funding from the Government of the Northwest Territories in the form of operating grants and capital grants. Administration is of the opinion that discontinuance of funding would significantly disrupt operations.

Fund Accounting

The accounts of the Town are maintained in accordance with fund accounting procedures. The various operations of the Town are segregated into the following funds:

General Operating Fund Utility Operating Fund Land Development Fund

Basis of Accounting

The financial statements are prepared using the accrual basis of accounting. The accrual basis of accounting records revenue as it is earned and measurable. Expenses are recognized as they are incurred and measurable based upon receipt of goods or services and/or the legal obligation to pay.

Funds from external parties and earnings thereon restricted by agreement or legislation are accounted for as deferred revenue until used for the purpose specified.

Government Transfers

Government transfers are the transfer of monetary assets or tangible capital assets from a government for which the government making the transfer does not:

- receive any goods or services directly in return;
- expect to be repaid in future; or
- expect a direct financial return

Operating transfers are recognized as revenue in the period in which the events giving rise to the transaction occur, providing the transfers are authorized, any eligibility criteria have been met, and reasonable estimates of the amounts can be determined.

Notes to the Financial Statements

December 31, 2021

Note 1. Significant Accounting Policies (continued)

Government Transfers (continued)

Capital transfers or transfers of tangible capital assets are initially recognized as deferred capital contributions and subsequently recognized as revenue when the related tangible capital assets are purchased, constructed or the eligible expense is incurred.

Financial Instruments

Cash and receivables, and current liabilities are recorded at approximate fair market value due to their short term maturities.

Inventory for Resale

Land inventory is stated at the lower of cost or net realizable value where cost is determined on an average basis. Cost includes purchase price, survey costs and all development costs but excludes debenture interest. Related development costs incurred to provide infrastructure such as water and waste water services, roads, sidewalks and street lighting are recorded as tangible capital assets under the respective function.

Non-Financial Assets

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the normal course of operations. The change in non-financial assets during the year, together with the excess of revenues over expenses, provides the change in net financial assets (debt) for the year.

Notes to the Financial Statements

December 31, 2021

Note 1. Significant Accounting Policies (continued)

Tangible Capital Assets

Tangible capital assets are recorded at the net book value (cost less accumulated amortization) on the statement of financial position. Cost includes all amounts directly attributable to acquisition, construction, development or betterment of the asset. The assets are amortized over their estimated useful lives at the following rates:

Asset	Method	Rate
Land held for town use	Not amortized	
Works of Art	Not amortized	
Buildings	Straight line	15-50 years
Linear Infrastructure	Straight line	10-75 years
Computer Equipment	Straight line	3 years
IT Infrastructure	Straight line	5 years
Furniture and Fixtures	Straight line	10 years
Operating Equipment	Straight line	10 years
Mobile Equipment	Declining balance	24%

The full amount of the annual amortization is charged in the year of acquisition and none in the year of disposal. Assets under construction are not amortized until the asset is available for productive use.

Donated assets are capitalized and recorded at their estimated fair market value upon acquisition. Certain capital assets for which the historical cost information is not available have been recorded at current fair market value discounted by a relevant inflation factor.

Work-in-Progress

Work-in-progress represents expenditures incurred on projects not complete at the end of the year.

Leases

Leases are classified as capital or operating leases. Leases which transfer substantially all of the benefits and risks incidental to ownership of property are accounted for as capital leases. All other leases are accounted for as operating leases and the related lease payments are charged to expenses as incurred.

Investment in Tangible Capital Assets

Investment in Tangible Capital Assets represents the Town's net investment in its total capital assets, after deducting the portion financed by third parties through debenture, long-term capital borrowings and other capital liabilities.

School Taxes

School taxes are collected by the Town on behalf of the Government of the Northwest Territories. These taxes are payable to the Government of the Northwest Territories upon collection from taxpayers.

Notes to the Financial Statements

December 31, 2021

Note 1. Significant Accounting Policies (continued)

Deferred Revenue

Deferred revenue consists mainly of government transfers for which the events giving rise to the transfer have not yet occurred. The deferred revenue will be recognized in the financial statement as revenue in the period in which the related expenses are incurred.

Liability for Landfill Closure and Post-Closure Costs

The Town is required to fund the closure of its landfill site and provide for post-closure care of the facility. Closure and post-closure activities include the final clay cover, landscaping, as well as surface and ground water monitoring, leachate control, and visual inspection. The liability is determined using the estimated total closure costs adjusted for the remaining capacity of the site and the estimated remaining landfill life.

Use of Estimates

The preparation of financial statements in conformity with Canadian generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amount of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenditure during the period. Where measurement uncertainty exists, the financial statements have been prepared within reasonable limits of materiality. Actual results could differ from those estimates.

Segmented Information

The Town of Hay River segments its operations for financial reporting purposes based upon areas of managerial responsibility. This information is provided in Schedule 6 through Schedule 12.

Other	5,000	-
	\$ 5,006,054	\$ 3,640,953

Note 9. Landfill Closure Liability

The Town is required to estimate future closure and post-closure costs for its landfill site. The estimated liability is based on the sum of discounted future cash flows for closure and post-closure activities for 25 years after closure using a discount rate of 5.56% and inflation of 2.06%.

The accrued liability portion is based on the capacity used at year end compared to the estimated total capacity. The remaining estimated life of the landfill is 2 years and of the total capacity approximately 1.00% remains.

	2021	2020
Estimated closure costs	\$ 683,108 \$	637,686
Estimated post-closure costs	1,028,085	993,319
Estimated total liability	1,711,193	1,631,005
Estimated capacity used	98.6%	98.0%
Accrued liability	\$ 1,688,091 \$	1,599,173

	Principal Balance	Principal Balance
Description	2021	2020
Loan agreement facility for the Hay River Recreation Centre	12,886,671	13,609,493
	\$ 12,886,671	\$ 13,609,493

Notes to the Financial Statements

December 31, 2021

Note 10. Long-Term Debt (continued)

As at December 31, 2021, the Town has a bankers' acceptance ["BA"] facility of \$12,886,671 for the Hay River Recreation Centre bearing interest at the treasury rate plus a BA fee of 1.34% per annum. To reduce the interest rate risk on the facility, the Town entered into an interest rate swap contract that entitled the Town to receive interest at floating rates on the principal amount and obliged it to pay interest at a fixed rate of 2.60% per annum plus the BA fee of 0.40%.

The total estimated principal repayments of long-term debt due are as follows:

	Principal
2021	\$ 753,894
2022	773,730
2023	794,088
2024	814,982
2025	836,428

	2,133,683		5,877,057	2,875,000	6,618,374
\$	9,678,607	\$	8,861,012 \$	2,875,000	\$ 2,057,405

Note 14. Commitments

The Town has entered into agreements extending beyond one year for the use of equipment and various service contracts which require periodic payments. The minimum payments under existing agreements are as follows:

For the year ending December 31:	
2022	\$ 3,650

Note 15. Contingent Liabilities

Insurance

The Town participates in the Northern Communities Insurance Program. Under this program the Town could become liable for its proportionate share of any claim losses in excess of the funds held by the exchange. Any liability incurred would be accounted for as a current transaction in the year the losses are determined.

Notes to the Financial Statements

December 31, 2021

Note 15. Contingent Liabilities (continued)

Legal claims

In the normal course of operations, the Town is subject to various legal claims. At the date of the audit report, it is not possible to determine the outcomes of the claims and the amount of the potential liability cannot be reasonably determined. Management has indicated that it is unlikely there will be a material adverse effect on the financial position of the Town.

Note 16. Retirement Benefits

Employees of the Town can participate in the RBC Group Advantage retirement savings plan. Union employees make contributions at 5% and management makes contributions at 6.6%. The Town of Hay River makes matching contributions to these amounts. Total contributions by the Town to the program in 2021 were \$115,198 (2020 - \$102,706), which were expensed as incurred.

Note 17. Financial Instruments

The Town's financial instruments consist of cash, accounts receivable, accounts payable and accrued liabilities, and long-term debt. It is management's opinion that the Town is not exposed to significant interest or currency risks arising from these financial instruments.

The Town is subject to credit risk with respect to taxes and grants in place of taxes receivables and trade and other receivables. Credit risk arises from the possibility that taxpayers and entities to which the town provides services may experience financial difficulty and be unable to fulfill their obligations. The large number and diversity of taxpayers and customers minimizes the credit risk.

Unless otherwise noted, the carrying value of the financial instrument approximates fair value.

Note 18. Budget

The budgeted figures are those approved by Council on December 11, 2020 and are unaudited.

Note 19. Reclassification

Certain prior year figures have been reclassified to agree with current year presentation.

Note 20. Subsequent events

On May 12th, 2022, the Town of Hay river experienced a flood. The flood caused damage to linear structures and buildings. At the date of the audit report, the town is assessing the damges and the financial impact is not yet determinable. The amount of damages that can be recovered through insurance is unknown.
