

Town of Hay River Protective Services Town of Hay River EMO Update

May 10, 2021 Breakup Report 1730 Hours

The evacuation order has now been lifted for Vale Island and West Channel.

Presently all levels in the watershed are still high, but local water levels have dropped, and we have a good flow out the West Channel. The East Channel is still jammed and there is still a possibility of water coming up and breaching the banks in the old town area.

Your EMO team is going to continue Breakup Watch until such time as both channels are flowing freely to the lake.
