June 30, 2022

To all residents and businesses of Industrial Drive

Over the next few weeks, Rowe's Construction will be mobilizing personnel and equipment onto your street to begin the Town of Hay River's Industrial Drive water and storm improvements project. This will mean several pieces of heavy equipment will be operating on the roadway. Our different phases of work will include different pieces of machinery and closures of different areas of the roadway.

As the safety of our employees and the residents of Hay River is our primary concern, we request that all residents and business personnel take extra care to be always aware of their surroundings and potential hazards and follow all safety signs and instructions from workers.

This construction season's work will consist of drilling the waterline in place at the South end, installing the services, trenching the storm pipe at the North end, and then installing some culverts. It is our goal to be finished all work by end of September 2022.

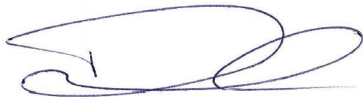

Construction hours will be from 7 am to 7 pm. Residents will receive prior notification of any service disruptions such as the installation of temporary water lines etc.

We understand that this may cause inconvenience and appreciate your patience and understanding. We hope to work together with you professionally and amicably for the long-term improvement of your neighborhood.

If you have any questions or would like further clarification, please contact

Angus Pardy, Site Superintendent: 709-884-7368
Ron Schaub, Manager: 867-874-3243

Sincerely,

Ronald Schaub
